

120kW outdoor telecom enclosure for airport use in senegal

What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

Can telecommunication equipment survive in an outdoor enclosure?

To survive in an outdoor enclosure, your telecommunication equipment needs to have climate control. So whether you are keeping the electronic system and its components cool in the summer or warm in the winter, outfitting your electrical box with the proper heating and cooling features will protect your investment.

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature, moisture, ice, shock hazards, and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.

Who makes outdoor electrical enclosure box?
