

The conference will be held at the Caroline Pauwels Seminar Hall, Building AB, U-Square Boulevard General Jacques 210, 1050 Brussels. 8:30 - 9:00: Registration. Prof. Anna G. Stefanopoulou, ...

BRUSSELS, Belgium (28 January 2026): The EU installed 27.1 GWh of new battery storage capacity in 2025, a new record year powered by strong utility scale deployment, according to SolarPower ...

Monday's announcement listed 22 projects that will receive subsidies and shows that Belgium plans to increase battery farms - amounting to an additional 357 MW of power. For ...

Maybe you're an urban planner, a renewable energy enthusiast, or just someone who Googled "cool battery tech" at 2 AM. Either way, this article unpacks the Brussels energy storage battery model, a ...

Designed to optimize battery performance across industries like solar storage, electric vehicles (EVs), and industrial backup systems, this technology ensures safety, efficiency, and longevity of energy ...

Our Battery Innovation Centre is regularly placed at the disposal of organizations and private companies for testing, simulation, prototyping and proof-of-concept. Being located in the centre of Brussels, we ...

This work presents the environmental life cycle impacts of a BEV, considering the implications of battery efficiency fade, refurbished battery life cycle, and changes in RES in the charging electricity mix, ...

With the rise of solar and wind projects, the demand for reliable storage solutions has skyrocketed. But how does Brussels rank in terms of lithium battery storage efficiency and deployment rates? Let's ...

This study provides an up-to-date expert assessment and comparison between the life cycle's carbon footprint of battery electric and internal combustion engine passenger cars. It presents evidence from ...
