

Direct-axis generator blades

Browse the range of wind generator & shop through a selection of small and large wholesale vertical axis wind generator blades and wind turbine accessories for home or industrial use.

This wind generator comprises a high-quality aluminum alloy body and nylon fiber blade, features low start-up speed, high wind energy utilization, and low vibration.

Our 3-blade wind turbine generator is an efficient generation device. It adopts a vertical and aerodynamic design, which can start and generate power output at lower wind speeds.

About this item ?Smooth Running?-The spiral blades adopt aerodynamic design to make the rotor run smoothly and reliably, so as to achieve stable power generation. The double ...

Shop high-quality vertical axis wind turbine blades for efficient energy generation. Perfect for home and commercial use. Bulk orders and OEM available.

?24V 3-Blade Vertical Axis Generators? Its blades are designed with aerodynamics and it has double bearings to ensure smooth and reliable rotor operation, reduce vibration, and improve ...

Our wind generator blades are properly balanced and eliminate the need for elaborate manual braking systems with the use of dynamic blade braking to slow the rotation of the blade set. Our blades are ...

About this item Innovative Precision Jetting Moulding Technology: This wind turbines blade utilizes advanced precision jetting moulding for an optimized aerodynamic design, resulting in ...

Get the best deals for Vertical Axis Wind Turbine Blades at eBay . We have a great online selection at the lowest prices with Fast & Free shipping on many items!

Our precision, aerodynamically tapered blades feature a 5.5 mph start up speed. Our superior Raptor Generation 4 blades can be used on air-x or other wind turbines to increase low wind start-up, power ...
