

Distributed solar energy storage facility project

Our goal is to educate and support the development of projects that meet Green Bank criteria. Eligible for financing are projects, activities, and technologies that develop and deploy small-scale renewable ...

EPC provider for utility-scale solar and storage projects, Distributed Energy Infrastructure (DEI), has completed construction on a new 7.1 MW solar + 4 MW battery storage project in Acton, ...

Convergent, owned by private equity firm Energy Capital Partners, finances, owns and operates distributed energy storage and solar-plus-storage systems for high-load industrial and...

Distributed Storage Adoption Scenarios (Technical Report): A report on the various future distributed storage capacity adoption scenarios and results and implications. These scenarios reflect ...

The Santa Maria facility primarily provides cold storage for fresh and frozen fruits distributed to regional food service providers and big-box retailers. The ballast-mounted solar system will ...

For solar-plus-storage--the pairing of solar photovoltaic (PV) and energy storage technologies--NLR researchers study and quantify the economic and grid impacts of distributed and ...

Berkeley Lab collects, cleans, and publishes project-level data on distributed* solar and distributed solar+storage systems in the United States. The data are compiled from a variety of sources, ...

There are over 1,400 major energy storage projects currently in the database, representing more than 116,300 MWh of capacity. The list shows that there are more than 195 GWdc of major solar projects ...

This resource page looks at ways to ensure continuous electricity regardless of an unforeseen event are by using distributed energy resources.

[Acton, MA - Nov. 3, 2025] - Distributed Energy Infrastructure (DEI), a leading EPC provider for utility-scale solar and storage projects, announces the completion of a new 7.1 MW solar + 4 MW battery ...
