

Donate photovoltaic panels

Our donation process provides a commitment of zero land fill of solar materials, little or no cost to the donor, tax incentives for donations, and a great feeling that you are helping those in need.

Since 2017, Good Sun has served over 2,000 low-middle income families, diverted over 150,000 pounds of solar panels away from landfills, and has provided over \$300,000 in materials and monetary ...

By leveraging community support and innovative solar programs, we help families reduce energy bills, increase sustainability, and improve their quality of life. Discover how donating solar panels or funds ...

Promoting solar energy for a more equitable world. Partnering with marginalized communities to expand equitable solar energy access. Donate Now

Your gift brings clean energy to nonprofits across the country that need it now more than ever. By going solar with RE-volv, our nonprofit partners are able to invest their savings back into their mission.

We secure public and private donations to install solar panels, energy storage solutions, and related mounting hardware

This collaboration aims to promote renewable energy and affordable housing, aligning with Good Sun's mission of environmental stewardship and community support. Each home, powered by solar ...

A new partnership between EnergyBin and Good Sun is hoping to change this and provide a way for solar companies and individuals to donate those still-viable solar panels to underserved ...
