

Equatorial Guinea Silent Container Power Plant

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of 20+ ...

As nations race to meet clean energy targets, Equatorial Guinea positions itself at the forefront with its New Energy Storage Industrial Park. This article explores the project's technical innovations, market ...

Highjoule successfully deployed a 1MW foldable photovoltaic container off-grid system at the Madina aluminum mine camp in Guinea, providing stable and clean electricity, replacing diesel generators ...

Equatorial Guinea's energy sector is undergoing a green transformation, with growing demand for reliable storage solutions to support renewable energy projects.

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they ...

We provide important information on all the upcoming/announced grid-scale/utility scale energy storage system (ESS) projects in Equatorial Guinea, including project requirements, timelines, ...

Equatorial Guinea is set to construct the first liquefied natural gas (LNG) storage and regasification plant in West Africa, advancing efforts to monetise gas resources through the creation of domestic gas-to ...

The power station series has a wide range of products, with a variety of structures and functions, among which mobile power stations and low-noise power stations are widely used.
