

# Floor mounted 15 degree solar container battery

The 15.36kWh floor-standing LiFePO4 battery (51.2V 300Ah) in a cabinet design with wheels is perfect for solar backup storage. Built with Grade A lithium cells and advanced BMS, it provides safe, reliable, and durable ...

Delong's floor-mounted solar battery, specifically crafted for households, can effectively reduce your electricity expenses. It stores energy when electricity rates are low, allowing you to use it during peak demand periods, ...

We offer free estimates, convenient payment plans, and same-day services.

Our floor-stand lithium battery is built for reliable, long-term energy storage. Using LiFePO4 cells, it delivers 51.2V and 300Ah capacity (15.36kWh), ideal for solar power systems needing strong backup.

The energy storage battery supports RS485 and CAN communication interfaces, offering strong compatibility and can be connected with most mainstream inverters on the market, ensuring high practicality.

This flexibility enables the battery pack to be easily integrated into various systems, including solar power systems, backup power systems, electric vehicles, and more.
