

Industrial and Commercial LONGi Photovoltaic Panels

LONGi Solar is the world's leading manufacturer of high-efficiency monocrystalline silicon wafers and PV modules. With advanced HPBC and PERC technology, LONGi delivers reliable, high-performance ...

LONGi has pioneered a breakthrough with its building-friendly rooftop PV technology. The LONGi Hi ROOF S C& I Metal rooftop PV solution features an innovative design combining...

Chinese PV manufacturer Longi has launched a lightweight back-contact solar module for low-load commercial and industrial rooftops with limited structural load capacity.

These panels are widely used in residential, commercial, and industrial applications, including rooftop systems, ground-based PV plants, agricultural PV integration, and off-grid installations in remote or ...

LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy transition. By offering high-quality, reliable ...

Power your business with LONGi's commercial and industrial solar solutions. High-efficiency, scalable, and cost-effective. Get a quote today!

In the commercial sector, Longi offers high-capacity panels that are ideal for large-scale solar projects. These panels are designed to maximize power output and are suitable for rooftop ...

LONGi is more than a product supplier, offering project consultation, design, installation, procurement, commissioning, operation and maintenance, and financing expertise. LONGi's network of R& D ...

Longi solar panels are used in a variety of applications, including residential, commercial, and industrial solar systems, as well as large-scale solar energy projects such as solar parks.
