

Ivanpah Solar Power System

The Ivanpah Solar Electric Generating System is a concentrated solar thermal plant located in the Mojave Desert at the base of Clark Mountain in California, across the state line from Primm, Nevada.

This ambitious undertaking, known as the Ivanpah Solar Electric Generating System, stands as one of the largest concentrated solar power (CSP) plants in the world.

The Ivanpah Solar Electric Generating System, located in California's Mojave Desert, is one of the largest concentrated solar power projects in the world. Powering up to 140,000 homes, it demonstrates the ...

The Ivanpah solar power plant formally opened in 2014 on roughly 5 square miles of federal land near the California-Nevada border. Though it was hailed at the time as a breakthrough moment for clean energy, its ...

The Ivanpah Solar Electric Generating System is a 386-megawatt project consisting of three solar concentrating thermal power plants located in the Mojave Desert in San Bernardino County. The project was certified by ...

The Ivanpah Solar Power Facility was set to shut down in 2026 after failing to meet its energy targets. Despite receiving \$1.6 billion in federal loan guarantees, nearly 75% of the facility's cost, it struggled ...

Two Ivanpah units are slated to close starting in 2026, per a January 2025 announcement pending CPUC approval. Here's the original context and what repurposing could look like.

In a dramatic turn for California's clean energy story, the large-scale solar-thermal project known as the Ivanpah Solar Electric Generating System is being shuttered well ahead of schedule.

One of the most ambitious solar projects in history is quietly heading for shutdown after just a decade of operation. The Ivanpah Solar Power Facility in California's Mojave Desert was once...
