

Juba Mobile Energy Storage Container 20ft for Wastewater Treatment Plants

What is containerized mobile wastewater treatment plant?

Containerized mobile wastewater treatment plant is the name given to the systems that work with the plug and play principle by mounting all the equipment in the factory in standard iso containers or specially produced containers.

Does biokube offer a containerized wastewater treatment plant?

In the picture, you can see all the necessary mechanical parts for independent operation. Delivered in 2014. BioKube offers a variety of containerized wastewater treatment plants in standard shipping containers for easy relocation.

How do mobile sewage treatment plant containers work?

All our mobile sewage treatment plant containers operate in both underload and overload conditions. Fully automatic operation and simple maintenance by unskilled staff. The modular system allows for rapid expansion and addition of further treatment processes. The systems are fully transportable and can easily be relocated and reinstalled at new sites.

What is a containerised portable sewage treatment plant?

A containerised portable sewage treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary. In addition to that, the systems are modular so that they can work together in a variety of combinations effectively dealing with variable wastewater volumes to achieve any effluent quality.
