

Participants at Intersolar Africa 2026 also emphasized the role of falling technology costs and energy storage in accelerating deployment, particularly across East Africa. David Wedepohl, Managing ...

East Africa is emerging as one of the world's most dynamic regions for solar power and battery storage. On 3-4 February 2026, Intersolar Africa will take place at the Sarit Expo Centre in ...

Kenya has reaffirmed its commitment to accelerating solar energy deployment and integrating energy storage systems as part of efforts to strengthen grid reliability and meet rising ...

Kenya Electricity Generating Company (KenGen) is powering forward with its green energy ambitions, officially launching the prequalification process for a 42.5 MWac solar PV plant ...

The falling costs of solar panels and batteries, coupled with advancements in energy storage technologies, are likely to drive further adoption of solar energy.

NAIROBI, Kenya, Feb 3 - Kenya has renewed its call for faster deployment of solar energy and battery storage as Intersolar Africa 2026 officially opened at the Sarit Expo Centre in Nairobi, ...

Kenya calls for scaled solar and storage as Intersolar Africa 2026 opens in Nairobi Kenya currently has approximately 210 MW of grid-connected solar, accounting for 6.5 per cent of installed ...

Kenya is accelerating solar energy deployment and energy storage integration as Intersolar Africa 2026 officially opened in Nairobi, bringing together policymakers, investors, developers, ...

Intersolar Africa 2026 will take place in Nairobi on February 3-4, positioning Kenya as a key hub for solar power and energy storage in East Africa.

Kenya has reaffirmed its commitment to accelerating solar energy deployment and energy storage integration as Intersolar Africa 2026 Exhibition and Conference officially opened on Tuesday, ...
