

Several kinds of newly developed devices are introduced, with information about their theoretical bases, materials, fabrication technologies, design considerations, and implementation presented.

The global transition towards carbon neutrality and sustainable energy systems has spurred intensive research into advanced energy storage and conversion technologies [1, 2].

Summary: Discover how advanced electrochemical energy storage systems are reshaping industries from renewable energy to electric vehicles. This article explores cutting-edge technologies, real ...

Lennart Karl has been Bayern Munich's breakout star this season He is the youngest player to score in three consecutive Champions League games A call-up for the senior national team ...

The FIFA World Cup 2026, the inaugural Women's Champions Cup, youth tournaments at U-20 and U-17 level, and the Intercontinental Cup are all on the agenda.

As the year draws to a close, take a look back through a selection of the best images from FIFA's tournaments.

Erling Haaland, Robert Lewandowski, Lionel Messi, Cristiano Ronaldo, Lamine Yamal feature as FIFA spotlights the records being pursued this year.

Our analysis emphasizes the diverse applications of the different ML algorithms, ultimately facilitating more efficient and cost-effective AI-driven research.

European qualifying began in March 2025 A record sixteen teams will reach FIFA World Cup 26 Click here for all the latest news on UEFA qualifying

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

FIFA relives the tournaments which thrilled fans worldwide and celebrates the triumphant teams and players.

By bridging the gap between academic research and real-world implementation, this review underscores the critical role of lithium-ion batteries in achieving decarbonization, integrating ...

The FIFA U-20 World Cup(TM) will be back for its 24th edition. Twelve nations have lifted the trophy before, the latest being Uruguay in 2023.

Latest electrochemical energy storage

Electrochemical energy storage systems face evolving requirements. Electric vehicle applications require batteries with high energy density and fast-charging capabilities. Grid-scale ...

He is the latest Dutchman to lead Indonesia's FIFA World Cup(TM) 26 qualifying bid, joining new head coach Kluivert and assistants Alex Pastoor and Denny Landzaat.

High-energy lithium-ion systems, quasi-solid-state configurations and sodium-ion batteries were among the main strategies pursued in 2025 to achieve that goal. The importance of ...
