

Latvian lithium battery pack custom processing

Our in-house testing facilities allow us to rigorously evaluate battery performance, safety, and reliability under various conditions. We also handle global certifications on-site, ensuring your custom battery ...

Our state-of-the-art factory leverages the latest advancements in Lithium Iron Phosphate (LFP) battery technology. LFP batteries are known for their superior safety, longevity, and environmental ...

We work with each client to design fully custom energy solutions, from basic functionality to exact voltage and capacity. The process begins with a comprehensive feasibility study to understand the ...

Discover how Latvian lithium battery pack customization meets evolving energy demands across renewable energy, transportation, and industrial sectors.

Company is producing battery packs using 21700 cylindrical cells. The R & D team is working with any custom made solutions and can produce products based on customer needs.

Lithium battery energy storage systems (BESS) have become the backbone of efficient forklift operations in Latvia's booming logistics and manufacturing sectors.

Your specialist custom lithium-ion battery pack manufacturer. We design and manufacture custom lithium battery packs for diverse industries.

With a team of over 300 professionals across our production and development facilities in Europe and Asia, we deliver safe and reliable battery packs, ranging from simple lead-acid batteries to complex ...

Lithium Werks plants have been manufacturing cells and modules for over 20 years. We have the experience and the know-how to build a custom battery module to fit your application.

At Vade Battery, concurrent electrical-mechanical design forms the backbone of our custom lithium-ion battery development. Unlike competitors who silo these disciplines, our cross ...
