

Liquid-cooled outdoor solar power hub

The SolaX TRENE ESS features advanced liquid cooling technology that ensures optimal performance by maintaining cell temperature differences under 3°C. With a robust 314Ah LFP battery, it ...

Liquid cooling offers superior thermal management, maintaining optimal battery temperature under high loads. It enhances safety, increases cycle life, and ensures consistent performance in varying ...

Liquid-cooled 125kW/261kWh ESS for C& I solar storage, peak shaving, and backup. IP65-rated, smart EMS, and 8000-cycle LFP for long-lasting safety.

All-in-one design with liquid cooled battery rack pre-installed and a plug and play interface for auxiliary power supply, communication, and DC connection, which can be installed as a ...

Discover how liquid-cooled outdoor energy cabinets enhance green energy solar systems, hybrid power stations, and energy management.

This innovative project seamlessly integrates a state-of-the-art solar photovoltaic (PV) carport with a high-efficiency liquid-cooled outdoor cabinet to create a smart, sustainable, and self-powering ...

Available in 232kWh and 261kWh capacities, this system is ideal for use in microgrids, off-grid energy solutions, and hybrid power systems. With advanced liquid-cooling technology, it ensures optimal ...

Our outdoor energy storage cabinet is an intelligent integrated management system that provides reliable and efficient energy storage for outdoor applications.

Engineered for high-capacity commercial and industrial applications, this all-in-one outdoor solution integrates lithium iron phosphate batteries, modular PCS, intelligent EMS/BMS, and ...
