

Longi photovoltaic panel 355

The LONGi HPB Series combines High Efficiency, Low LID Mono Half-Cut Cells with multi-bus-bar technology to improve performance and boost production. 35mm frames reduce weight while still ...

High-Efficiency and Low LID Mono Cells: This solar panel utilizes advanced Half-cut Multi Busbar (MBB) Technology to enhance overall performance. Lightweight and Durable Design: The ...

The LonGi 355W Solar Panel (LR4-60HPB) is a highly efficient and durable monocrystalline module, designed to deliver superior energy yields in both residential and commercial installations.

All you need to know about the LR4-60HPH 355M solar panel including rating, cost, efficiency, and warranty terms.

LONGI 355W LR4-60HPB is a 120 cell solar panel, which combines high efficiency and low LID mono PERC cells. This module has a 35mm lightweight frame resilient enough to withstand ...

The LONGi LR4-60HPB 355M is an all-black high-quality solar module with a peak power output of 355W that offers excellent power output, efficiency, and durability.

LONGI 355W LR4-60HPB is a 120 cell solar panel, which ...

The Longi 355 is a 355W solar panel that has a 120 cell, monocrystalline, half-cut technology and It has a 35mm lightweight frame that is resilient enough to withstand 5400Pa load and 25mm hailstones at ...

Please see related items below for similar or newer versions.

High-Efficiency and Low LID Mono Cells: This solar panel utilizes advanced Half-cut Multi Busbar (MBB) Technology to enhance overall performance. Lightweight and Durable Design: The 35mm black ...

The increased efficiency of the Longi 355w solar panel leads to higher power output, making it an excellent choice for various solar applications. Whether it's for residential, commercial, or industrial ...
