

New pv module project in australia

The Australian Renewable Energy Agency (ARENA) has awarded conditional funding of up to AUD 151 million (USD 99m/EUR 85.2m) for the construction of a 500-MW solar module factory ...

Located in Queensland's Central Renewable Energy Zone (REZ), the project combines Elements Green's global development expertise with SMA's advanced grid-forming and solar inverter ...

Dr Zhengrong Shi, the solar PV pioneer once dubbed the "sun king", has unveiled plans to build a big manufacturing centre in Australia to make his new Sunman flexible solar panels.

Renewable energy developer Pacific Energy has completed the installation of all 66,000 solar modules for a 35MW solar PV plant at a Western Australian mining site. The PV plant will form...

China's Trinasolar is teaming up with Australia's SunDrive Solar to manufacture solar panels in Australia. The 2 companies have signed a memorandum of understanding to form a joint ...

Chinese manufacturer Sunman is to build a 500 MW per annum solar module production facility in the New South Wales Hunter Valley after securing funding support from both the state and ...

The Sunman Group, founded by solar pioneer and University of New South Wales (UNSW) alumnus Zhengrong Shi, has announced it will develop Australia's largest solar module ...

With Solar Sunshot backing, this new facility will bring world-leading solar expertise back to Australian shores, reaffirming Australia's strength in solar innovation and positioning Australian ...

The facility will reduce solar module costs by approximately 15% by eliminating import expenses, while supporting Australia's position as a global leader in solar research and deployment.

Search all the announced and upcoming solar photovoltaic (PV) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Australia with our comprehensive online database.
