Who is AA portable power corp?

AA Portable Power Corp. (dba: Batteryspace.com) was found by several previous BYD USA team members in 2000 and became a joint venture of several battery and charger manufacturers over years.

What can a portable power station charge?

Whether for home or your camp outdoors, a portable power station provides you with backup power. Portable charging stations can charge most high-power appliances such as refrigerators, air conditioners, hair dryers, microwaves, coffee makers, ventilators, heaters, electric grills and more.

What is a portable power station?

It typically use lithium-ion batteries to store energy and convert it to AC or DC power that can be used to charge electronic devices, power appliances, or even run power tools. They are compact and lightweight, making them easy to transport and set up. One of the biggest advantages of portable power stations is their versatility.
