

## Saudi modular battery cabinet for data centers IP55

The unit integrates power, cooling, security, and monitoring into one IP55-rated enclosure. AgileRAX works as a plug-and-play setup for edge computing, smart manufacturing, branch offices, or ...

Keeping in mind the constant running of a control room, our comprehensive range of technical solutions offer best in class ergonomics and flexibility, modular design and unmatched operator efficiency levels.

Protect the reliability and efficiency of your processes with a complete range of high-quality, standard and custom enclosures for electrical distribution, data network and industrial automation applications.

The Galaxy Lithium-ion Battery Cabinets for 3-phase UPSs are sustainable, innovative energy storage solutions for data centres, industrial processes, and critical infrastructures.

With its advanced features, modular design, and expandability, this battery pack is an excellent choice for those seeking a robust and future-proof energy storage system.

Scalable modular data center cabinets designed for Saudi Arabia, offering fast deployment, secure infrastructure, efficient cooling, and flexible expansion for modern digital growth.

DConnect industrial outdoor network cabinet solutions are engineered to protect IT and telecom equipment in harsh Saudi outdoor conditions. With galvanised steel housing and IP55/IP66 ...

It aims to provide a stable, efficient, secure, and sustainable operating environment for data centers, ensuring that data processing and storage equipment operate optimally, meeting customers' needs ...

Explore our range of precision-engineered cabinets and enclosures, designed to meet diverse infrastructure needs. From data centers to outdoor solutions, we offer both standard and custom-built ...

Cabinets, enclosures and racks for data centers, solar and BESS, manufactured in Saudi Arabia to your drawings with local lead times and IKTVA impact.
