

Ground source heat pumps (GSHP) are common in Sweden, but solar energy systems are not. GSHP could offer an ideal platform to integrate solar energy into the building and national energy systems ...

Let's address the elephant in the igloo: Sweden's winter darkness isn't just a mood--it's a solar emergency. But where vampires fear sunlight, Swedes weaponize it. The secret? A 16kW ...

One of the smartest residential communities in the world near Stockholm will generate, share and optimize energy to reduce bills, and offer sustainable, modern living.

Samsung Electronics today announced its showcase of a model home with a Smart Home Energy Management System (SHEMS), supported by SmartThings Energy, in Brobyholm, a ...

That is exactly what Elvy, a fast-growing Stockholm energy startup, aims to change. It lets homeowners get solar panels, heat pumps, batteries, installation, and ongoing maintenance ...

The Sweden Solar System is the world's largest permanent scale model of the Solar System. The Sun is represented by Avicii Arena in Stockholm (still known by most as Globen), the largest hemispherical building in the world. The inner planets can also be found in Stockholm but the outer planets are situated northward in other cities along the Baltic Sea. The system was started by Nils Brenning, professor at the Royal Ins...

Visitors can see the technology in a live OBOS show home environment, in nearby Akersberga. The next-generation community blueprint it establishes is expected to expand into other ...

The compact row houses feature carefully angled solar panels that harness every moment of the sun.

In order to secure feasibility, the suggested framework is assessed from the techno-economic and environmental standpoints for 100 residential apartments in Stockholm, Sweden.

"Master-Sanctuary transformed our home completely. The solar system has cut our electricity bills by 75%, and the home automation makes daily life so much easier.

Stockholm solar home system
